CORNERSTONE

Is Laid In The Presence of a
Vast Crowd Of Kentuck-
ians.

AND FORMER REIDENTS

Ceremony of Laying Corner
Stone Was Performed to
strains of Old Ky. Home

Frankfort, Ky., June 16.—In the
presence of a vast crowd of Ken-
tuckians and former residents of the
commonwealth here to attend the
Homecoming, Governor Beckham
this afternoon signaled that the cor-
ner stone of the new Kentucky cap-
itol be swung into place and depos-
ited therein a copper box containing
the records of state and sealed up
the opening with a silver and ebony
trowel.

The ceremony was performed to
the strains of "My Old Kentucky
Home." On the stand with Gover-
nor Beckham, during the ceremonies
were former Governor Preston H.
Leslie, now of Montana; former
United States Senator William Lind-
say, of New York, United States
Senator J. B. McCreary, former ex-
ecutive of the state, former Gov-
ernor Thomas Crittenden, of Missouri,
and ex-Kentuckians and officials of
the state of Kentucky.

The ceremony of laying the corner
stone was the greatest event in the
history of the city of Frankfort, as it
settled forever the question of the
capital removal, which was agitated
before the general assembly for half
a century.

Senator Lindsay was the orator of
the day. He referred to his public
life as a citizen of Kentucky and its
representation of the national cap-
ital, and declared today was indeed a
homecoming to him. He expressed
the gratification that Frankfort,
which he always called his home,
though residing in the East for a
number of years, and Kentucky,
that their history and traditions are
to remain united in the future as in
the past.

He reviewed the part Kentuckians
have played in history, not only of
their own state, but of the nation.

Secretary of State McChesney re-
viewed the capitals of Kentucky.
There has been nine capitals since it
entered the sisterhood of states.

In laying the corner stone Gov-
ernor Beckham spoke briefly.

tures at Pilot Rock next Sunday.
He claims to be the only "Gentile
Jew" evangelist in the world. His

LIVED CENTURY.

Probably Oldest Man of His
Section Passes Away.

James Jones, who resided just
over the Trigg county line, in Ste-
wart county, Tenn., died Friday. He
was well known in this city and was
a man of family. He was probably
the oldest man of that section, hav-
ing celebrated his 99th birthday on
March 11 last. Mr. Jones had been
in excellent health until a few weeks
ago.

THREE DAYS' SESSION.

A Fine Program Arranged
and a Large Attendance
Is Expected.

Beginning today and lasting
through Thursday, the 29th annual
meeting of Kentucky Pharmacists
will be held at Cerulean Springs.
This is the first meeting held in
Western Kentucky for several years
and the attendance is expected to be
unusually large, not only on account
of the important business to be con-
sidered by the men who fill prescrip-
tions for the people, but on account
of the entertainment to be furnished
by Capt. Pool, the popular host of the
Cerulean Springs hotel. The reputa-
tion of the hotel will be fully
sustained as no pains or expense
will be spared to make the occasion
one of the most enjoyable in the history
of the association.

The program, as arranged by phar-

CHARLES HARRIS NASH, JR., LOCAL SECRETARY.

Mr. Nash is one of the most popular young druggists in Kentucky, and
is always a conspicuous figure at the meetings of the As-
sociation, holding several positions of honor and trust.

macists Jas. W. Moore, Chas. Nash
and O. Small, is one that cannot fail
to interest everyone. Fourteen
prizes are offered for best papers
read on different subjects, one of
which is to be given to the lady who
reads the best paper on the use of
cosmetics, would you marry again,
or the simple life versus society.
Either subject can be chosen, and
the prize offered is a cut glass punch
bowl. The first day's program pro-
vides for contests in ten pins, quo-
tations, pictorial and odor contests,
progressive euchre quito pitching
rifle shooting, conundrum and hair
raising contests. Wednesday's pro-
gram embraces progressive euchre,
two hen races and one pig race,
football kicking, nail driving, barrel
race, ball throwing, color contest,

the official program. Eighty-one
wholesale firms have donated differ-
ent articles to be given to successful
contestants, while a dozen or more
firms have made cash donations to
help meet the expenses of the meet-
ing.

Mr. Chas. H. Nash, the
retary, has been working hard to
make the 29th annual meeting the
best that has ever been held. With
the assistance of the two other gen-
tlemen on the committee of enter-
tainment he has arranged for some-
thing to be going on all the time
during the three days of the meeting.
The music will be furnished by the
band engaged for the summer by
Capt. Pool.

11 ARRESTS

For Various Offenses, Made
Saturday and Sunday

Business was unusually lively at
police headquarters Saturday and
Sunday. Violators of the law in-
dulged in almost every crime in the
calendar under the head of misde-
meanors. There were three for dis-
orderly conduct, 2 for drunkenness,
3 for street walking, 1 breach of the
peace 1 selling liquor without license
and 1 for walking with the prosti-
tute. Should the penalty for these
11 offenses be inflicted a large sum
will go into the city treasury.

FLOWER BEDS

Planted Around the Baptist
Church Building.

The Baptist church has beautified
the plats about the church building
by planting four pretty flower beds
of geraniums, cannas, colenias and
heliotropes. The work was done by
T. B. Metcalfe, the florist. The beds
are tastefully arranged and tempted
thieves to such an extent that some
of the plants were pulled up and
taken away the first night they were
put out.

The annual picnic of the Sunday
School of the First Presbyterian
church will be held at Edward's

Laugh While You May.

Never mind tomorrow; have your fun to day;
You can't tell what sorrow then will stop your play.
Trouble don't you borrow; still be blithe and gay,
When the sun is shining is time to make your hay.

Needn't be too saving; that will never pay,
Foolish censure braving, spend without delay.

What's the use of slaving? Work will turn you gray,
When the sun is shining is time to make your hay.

Nature's voice is calling; that you must obey,
Leaves will soon be falling, roses will decay.

Age, our limbs entralling, naught will ever stay,
When the sun is shining is time to make your hay.

Sore Muscles.

Prominent athletes throughout the country find that the best treatment for sore muscles after severe exercise or hard work of any kind, is a hot bath at bed time, which opens the pores. This should immediately be followed with an application of Chamberlain's Pain Balm, vigorously rubbed into the skin. This liniment removes all stiffness and soreness and has become a favorite rub down, as it acts promptly and keeps the muscles in excellent condition. For sale by L. L. Elgin and Anderson & Fowler, up-to-date druggists at Hopkinsville.

Provide Green Food.

Don't forget that fowls need green food even more during the summer months than the winter. But this is proper, because now is the time when it can be provided easiest and cheapest.

If the yards are bare, add cut clover to the mash, if you feed mashes. Vegetables from the garden are excellent. Lettuce is greatly relished, but should be fed rather sparingly. Nothing can beat mangel wurzels for roots and rape for leaves. But there can be no ill effects from the use of the other food mentioned if only a little of each is fed; and variety is desirable anyway.

Weeds are always plentiful at this time of the year; pull some up and throw in the poultry yard. They may not be quite so excellent as vegetables, but will serve the purpose quite well in the absence of anything better. And when thus used, they equalize, to some extent at least, the loss caused by their growth in the garden.—Successful Farmer.

How to Break Up a Cold.

It may be a surprise to many to learn that a severe cold can be completely broken up in one or two days' time. To do this, however, prompt action is necessary. The first symptoms of a cold are a dry, loud cough, a profuse watery discharge from the nose, and a thin, white coating on the tongue. When Chamberlain's cold remedy is taken every hour on the first appearance of the symptoms, it counteracts the effect of the cold and restores the system to a healthy condition within a day or two. For sale by L. L. Elgin and Anderson & Fowler, up-to-date druggists at Hopkinsville.

AN ICEMAN'S RETORT.

In her daily altercation with the iceman over the short measure he delivered, Mrs. Jones one morning rallied him, in half angry good nature, "I don't see what makes you so stingy with your ice! You know you can't take any of it with you to the next world!"

The man paused with his hand on the door-knob. "Yes, Mrs. Jones," he said, "but you must remember that if you was to see me coming with a block of ice to you in the next world you'd be so glad to get it that you wouldn't have a word to say about short weight." —Lippincott's.

"Jedge," said the old colored citizen, "how much for a license ter git married?"

"Want it for yourself?"

"Yes, sub. You see, I gittin' mighty old now."

"That's evident. Then, why do you wish to marry?"

"Well, Jedge, ter tell de truth, somebody gimme a long coat, a linen collar en a walkin' cane, en I knows a 'oman what says she kin make a livin' fer me, en I feels des lak a honeymoon!"—Atlanta Constitution.

Geyser Clock.

One of the most curious clocks in the world is, perhaps, that which tells the time to the inhabitants of a little American backwoods town. The machinery, which is nothing but a face, hands and lever, is connected with a geyser which shoots out an immense column of hot water every 38 seconds. This spouting never varies the tenth of a second. Every time the water spouts up it strikes the lever and moves the hands forward 38 seconds.

this tube is inflamed you have a
rumbling sound or imperfect hear-
ing, and when it is entirely closed
deafness is the result, and unless
the inflammation can be taken out
and this tube restored to its normal

forever; nine cases out of ten are
caused by catarrh, which is nothing
but an inflamed condition of the

President Adlai Stevenson and Hon.

Outwits the Surgeon.
A complication of female troubles,
with catarrh of the stomach and
bowels, had reduced Mrs. Thos. S.
Austin, of Leavenworth, Ind., to
such a deplorable condition, that her
doctor advised an operation; but her
husband fearing fatal results, post-
poned this to try Electric Bitters,
and to the amazement of all who
knew her, this medicine completely
cured her. Guaranteed cure for tor-
pid liver, kidney disease, biliousness,
jaundice, chills and fever, general

Workmen engaged at Jellico,

claimed that motor boats may be
operated for miles in this subter-
ranean stream, and that the bones
of extinct animals and many other
interesting relics have been taken
from it.

Large Men.
Stout Men.

Men who think they are
hard to fit because they are
out of the ordinary—can
dress as neatly and becom-
ingly as the most perfect
tailor's model.

Inexpensively? Yes, extremely so.
It's not the price that makes the fit;
it depends entirely on the design
and tailoring. Schloss Bros. & Co.,
of Baltimore and New York, are
known the world over as Specialty
makers of fine Ready-to-Wear Gar-
ments. They have made a study of
draping large, stout men and men
out of the ordinary proportions.

What we mean by "draping" is
not merely "dressing," or "cloth-
ing." We mean fitting them per-
fectly in garments particularly de-
signed to moderate where nature
has been profuse and to fit out where
nature has been deficient.

In other words, this Schloss clothing not only clothes the figure, but
"drapes" it as well—makes the style of the moment seem to have been
especially designed for the wearer.

A trial is all that's necessary to convince you. Come
to see us. Try one of these Schloss specialties and you
will be surprised to see how well-proportioned and
handsomely dressed you can look by simply wearing
clothes especially designed by these skillful tailors to
fit men of just your build and physique.

Prices are not high! To the contrary, very reasonable, because these
celebrated clothes makers cut and tailor these goods in large quantities by
the wholesale, and they cost you no more than similar clothes of ordinary
size.

We are certain that if you come in and try on one of these suits you
will become a permanent patron, and thank us for the suggestion.

Yours truly,

Hopkinsville, Ky., April 30th, 1906.
Mr. Walter F. Garnett, Agent,
New York Life Insurance Co.,
City.
Dear Sir:—
It gives me pleasure to acknowledge receipt of statement of optional
settlement on 20-Payment Life Policy, No. 223,593, for \$1,500.00, issued
at age 35, with premium of \$52.50, taken out with you April 29, '96. After
having been insured for 20 years, I am offered a paid up policy for \$1,500
and a cash dividend of \$406.88, or the total value may be withdrawn in
cash—\$1,215.88, (which is more than I have paid in the 20 years) or a
fully paid up policy payable at my death for \$2,219.00.
The cash settlement of \$1,215.88 is equal to Term Insurance at
\$12.87 per \$1,000 and an investment of the balance of premiums with 5 1/2 per
cent. compound interest for twenty years. This showing is certainly a
credit to me for the New York Life, and I will be pleased to give you
my application for \$1,000 on the Ordinary Life plan.
Yours very truly, C. E. WEST.

Often The Kidneys Are

Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood. It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It is the highest of its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar sizes can be had by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

LEVY FIXED FOR 1906.

Remains Same as Heretofore, \$1.50 For All Purposes.

THE COUNCIL TO-NIGHT.

The License Revision Under New Law Will Be a Special Order.

The Council met Friday night with all members present except Councilman Davis.

Three important ordinances were passed. One of them fixing the levy for 1906 the same as heretofore—75 cents for general purposes, 25 cents for sinking fund and \$1.50 poll tax for whites and colored. Also 50 cents and \$1.50 poll tax for whites only, for school purposes. The total tax assessment is nearly \$3,000,000, of which \$2,700,000 is in whites, \$200,000 on colored and the rest is in process of adjustment by the Board of Supervisors, who meet to-day. The increase over 1905 is about \$300,000.

Another ordinance extended the fire limits on the East side from Railroad to Campbell street.

The third prohibits the washing of vehicles or horses on the streets of the city. The excess of water on Tenth street, near Clay, growing out of this recently caused the grand jury to indict the city for maintaining a nuisance.

A concrete way was ordered down on the East side of Clay street from Tenth to Ninth.

The important matter of revising the licenses for the ensuing fiscal year and the consideration of the Seventeenth street sewer matter, were not taken up. A special meeting will be held to-night to finish the business.

ITCHING SCALP FALLING HAIR

Came Out Constantly—Hair Finally Had to Be Cut to Save Any—Scalp Now in Good Condition and No More Itching—Another Effective

CURE BY THE CUTICURA REMEDIES

"I will gladly give you all the information concerning my case. I used the Cuticura Soap and Ointment for a diseased scalp, dandruff, and constant falling of hair. Finally I had to cut my hair to save any at all. Just at that time I read about the Cuticura Remedies. Once every week I shampooed my hair with the Cuticura Soap, and I used the Ointment twice a week. In two months' time my hair was long enough to do up in French twist. That is now five years ago, and I have a lovely head of hair. The length is six inches below my waist line, my scalp is in very good condition, and no more dandruff or itching of the scalp. I used every remedy that was recommended to me as good, but with no results. If you wish to publish any of what I have written you, you are welcome to do so. I am, respectfully, Mrs. W. F. Grooms, Clay Center, Neb., Oct. 23, 1905."

FROM THE HOUR OF BIRTH Mothers Should Use Cuticura Soap, the World's Favorite

Mothers are assured of the absolute purity and unflinching efficacy of Cuticura Soap and Cuticura Ointment, the great Skin Cure, in the preservation and purification of the skin, scalp, hair, and hands of infants and children. For baby eczema, rashes, itchings and chafings, as well as for annoying irritations and ulcerative weaknesses, and many sensitive antiseptic purposes which readily suggest themselves to mothers, as well as for all the purposes of the toilet, bath, and nursery, Cuticura Soap and Cuticura Ointment are priceless.

Mrs. Lee King, of Hopkinsville, visited her sister, Mrs. Ida Simmons, last week. She was going to G. W. Barnes', at Carl, to visit Miss Becky White.

The cherry crop is very light this season. Apples will also be scarce. Some orchards have no apples, while in others there will only be a half crop.

Mrs. J. R. King, of near Little River Church, visited her brother, Charlie Carter, recently.

Miss Ruby White visited her uncle, Esq. L. B. King, of Kelly, last week.

Mr. Elbert Barnes and wife are again on the sick list.

Mr. C. W. White, who resides near here, had his cows in a pasture in which there was a well. One of the animals went to the well, and, jumping over the enclosure, landed on the plank that covered the hole in the ground. Her weight caused the board to give way and the cow landed at the bottom, a distance of thirty feet. The well was dry. The cow was hoisted to terra firma by means of a windlass. She was quite badly injured and may die.

Right Paint at the Start

Pure White Lead and Pure Linseed Oil should always be used before the first or priming coat. No other paint has the same ability for the surface—marrying and becoming a part of the surface.

Yellow ochre, barytes, zinc or any other substance that the Pure White Lead fails to unite with the wood and serves only to form a cushion, which will prevent even penetration with Lead from attaching itself when finally applied.

That yellow results are avoided, the wood must be obtained so close as the surface is coated with a *venezing* (for that is what it is) of Yellow ochre, barytes, zinc, etc., and such a coating is bound to crumble, crack and peel, and must be burned or scraped off, down to the wood itself, before a good job can be done—on a preventive process, and not without danger of fire.

A house owner can scarcely make more costly mistake than to use the substance for Pure White Lead in the primer coat. Avoid all risk by using

How to Interest the Wife in Poultry.

FOR many reasons woman is far better adapted to the poultry business than man. Hatcheries and rearing chicks require constant attention to little details overlooked by the average man who is in every way naturally equipped for coarser and heavier work. Notwithstanding, we find men breeders and fanciers in the majority by long odds, in fact a lady enthusiast in the poultry business is an exception. There must be some good reason for this. Of course, it is generally understood that a woman is so occupied raising her family and looking after house work, she has not the time to devote to it. It must be conceded this is the case with a great many, but poultry can be easily made to pay for a servant, and the woman has the opportunity to exchange the monotonous drudgery of house work for an interesting and health giving out door work, far more pleasant and interesting.

It is an old story to hear a man say: "If I could only get my wife interested in poultry, we could make a wonderful success of it."

regret at any by which the wife can be interested and if the case is properly diagnosed it is easy to tell whether or not this prescription will have the desired result. First, if the family is large and the house is small, the wife is obliged to work heavy, employ a servant to do the housework, and if the husband is not so frugal as not to afford of the cost, as she will make, not only enough to pay the servant hire, but to buy many little things necessary to have about the house. Second, when a customer calls to see the chickens, let her show the birds, tell of their winnings, etc. When times come for the sale of the chickens, let her attend them, to meet the fanciers and be recognized in the fraternity. Then when a \$5 bill comes for a trio, let her get it mixed up with the old tobacco crumbs away down in your pocket, but turn it over to her and make her think she has earned it.

Woman's pride and independence generally exceeds that of man and she finds extreme satisfaction in being able to earn something and retain her individuality, while it is true the husband should be the head of the family, there is no reason why he should absorb the identity of his wife.

Our civil laws recognize them as equal partners in business, and title

to all property acquired by their joint efforts is vested equally in each. But no woman can have any business qualifications if she be kept tied down with kitchen drudgery which can be done by a \$10 a month servant.

men who have not more earning capacity than this. It would be a very unbusinesslike proposition to use a fifty horse power engine to run a five horse power machine. Political economy means to reduce to the minimum what machinists term "lost motion."

level of his capabilities, both in the business and social world, but it is quite impossible to do so without getting out and breathing the real

Are you making as much off your farm as you ought? No doubt you are making all you CAN. The trouble is the land costs too much. It takes too much money to buy a big farm, and so you are trying to make a living on a small farm, or perhaps you are renting one and paying a good share of what you raise, in rent. Wouldn't it be better to go where the price of good land is so little that you can own a big farm—where every acre of the ground is working for you and all you raise is paying you good profits?

Plymouth Rock Fowls in 1846

WITHOUT doubt the Barred Plymouth Rock is the most popular variety of fowls in this country. For two or three winters we have been told that White Plymouth Rocks and White Wyandottes are getting ahead of the old favorites, as shown by the number at the great shows, but this is not the true criterion. Breeders of White Plymouth Rocks and White Wyandottes are about the most enterprising of all poultrymen and they get out and show their birds. They are proud of them and well may be, for either variety is as good for any purpose as the Barred Rock. At the same time one who goes through country places continually will soon become convinced that there are more Barred Rocks in the country than of all the other varieties combined, and we had almost said of all other varieties of fowls of any breed combined.

The Barred Rock is a grand breed, one of which any breeder may be proud. In color they represent the limit of breeding skill and one who does not admire a closely barred Plymouth Rock cock, lined as evenly as if a painter had placed the bars, his plumage clear silvery white barred with the indescribable Plymouth Rock barring will be hard to suit.

Not only is the Barred Rock ideally beautiful when well bred, but it does not stop at mere beauty. Fancy points are well enough in their way but the Barred Rock is utility from the ground up. Full breasted, thick of thigh, plump body it yields a large proportion of fine grained, sweet and palatable meat when prepared for the table. Being yellow skinned it perfectly meets the requirements of the American markets.

The hens of the best strains are above the average as layers and lay with considerable regularity, winter and summer, being quite easy to break of the sitting habit.

When we see what the Plymouth Rock of today is and read a description of what it was in 1849, we begin to appreciate what has been done with this breed to bring it to perfection and understand what we may hope for when we begin to try to improve any breed. From a recent number of the Homestead we extract the following description of Plymouth Rocks in 1849, as it was published in the Boston Cultivator of that day. The description evidently was written by the originator, whose name is lost to history, so far as this particular strain is concerned. The Cultivator said:

"I have given this name to a very extra breed of fowls which I produced by crossing a cockerel of Baylies' importation of Cochinchina with a hen, a cross between the fawn colored Dorking, the Great Malay, and the Wild Indian. The Plymouth Rock fowl, then, is one-half Cochinchina, one-fourth fawn-colored Dorking, one-eighth Great Malay, and one-eighth Wild Indian. The cockerels measure from thirty-two to thirty-five inches high and weigh about ten pounds, and the pullets from six and one-half to seven pounds each—forming in my opinion, the best cross that has ever been produced. Their eggs are of medium size, rich, and reddish yellow in color."

Plumage of fowls is given as "rich and variegated, the cockerels usually red or speckled and the pullets darkish brown, legs very large, and usually blue or green, but occasionally yellow or white, generally having five toes upon each foot. Some have their legs feathered, but this is not usual. They have large and single combs, rather short tails, and small wings in proportion to their bodies. The demand for this breed has exceeded all others during this season and they have been sent into most of the New England states and western New York."

The Massachusetts Ploughman is quoted on description as follows: "Body plumage of pullets, rich, deep brown, speckled with golden-tipped feathers. The under down is black or deep blue-black, and the tail is brown, black and gold. The legs of the pullets are very dark colored, and one-half of them or more are five-toed. The comb is single. They are deep and broad chested, but bodies proportionately long. The roosters are noble birds, among the finest I have ever met with. I am satisfied the Plymouth Rock carefully bred will become a most valuable one to the poultryer and agriculturist (a prophecy that held). The plumage of the roosters is dark, red hackles on neck and rump. The legs are bright yellow, slightly feathered;

body dark red and green, relieved with straw feathers of a golden tint, and the under portion of the body and breast is a rich, deep, glossy blue black, partaking of the plumage of the Wild Indian fowl. When in plumage the tail feathers are heavy. It will be noticed that no word of barring appears in the above descriptions. In weight and shape the Plymouth Rock of 1849 was not unlike the ones we have today. If the breed here described as Plymouth Rocks was really the one from which our present day Barred Rocks have descended there has been a remarkable change in color, and it is not wonderful that cocks are sometimes brassy or that hens sometimes show off colored feathers.

Every good thing said of the Plymouth Rock of 1849 may be repeated of the Barred Rocks of today.—Poultry.

WHY SO WEAK?

Kidney Troubles May Be Sapping Your Life Away—Hopkinsville People Have Learned This Fact.

When a healthy man or woman begins to run down without apparent cause, becomes weak, languid, depressed, suffers backache, headache, dizziness, and urinary disorders, look to the kidneys for the cause of it all. Keep the kidneys well and they will keep you well. Doan's Kidney Pills cure sick kidneys. Here is Hopkinsville testimony to prove it:

James A. Tryman, brick mason, 1230 South Virginia St., says: "Disorders of the kidneys brought on in my case sharp and continued a succession of pains and aches throughout my back that I could not rest comfortably at night and arose in the morning lame and sore. I was tired and worn out from morning to night. The kidney secretions were irregular, high colored and scalding. I had passed a heavy sediment if allowed to stand. I had no energy left and felt generally run down. I was feeling worse than usual when my attention was attracted by an advertisement of Doan's Kidney Pills and I got a box at L. A. Johnson's drug store and began using them. In a few days I noticed that the secretions had assumed a natural appearance and the pain and aching had been greatly relieved and by the time I had completed the box there was a wonderful change in my condition. I am glad to state that I am practically cured and Doan's Kidney Pills will be my friends for life."

For sale by all dealers. Price 50c. Forster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

Suggested Changes.

In the changes of the New Standard, the entire portion devoted to asteriferous should be carefully considered and rewritten. The description of ducks and geese as well, is so vague as to make it exceedingly difficult to understand. The color of the Indian Runner should be brought within bounds so as to exclude the possibility of the winning females having the penciling that through the Rouen cross. Pearl and White Guineas might well be introduced into the Standard, with a description and an illustration, perhaps, that would complete the list of breeds and kinds to the advantage of the amateur and those outside of the recognized fancy who purchase the book for information.—Feather.

A Happy Mother

will see that her baby is properly cared for—to do this a good purgative is necessary. Many babies suffer from worms and their mothers don't know it—if your baby is feverish and doesn't sleep at nights, it is doubtless with worms. White's Cream Vermifuge will clean out these worms in a mild pleasant way. Once tried always used. Give it a trial. Price 25 cents. Sold by Cook & Higgins.

Be careful that all chicks get their share. If some fail to get their share they surely develop into culls. Don't feed the large and small ones together. It is best to have separate coops and separate places for each size.

The Old Reliable Jewelry House
of Hopkinsville is, after all, the best place to get anything in the jewelry line. There's a record behind us, a record of over thirty years; a clean record of satisfied customers, a record of honest dealing, for honest quality, honest prices. It's a record any jeweler might feel proud of. And when we sell an article we have in mind that we have a record to maintain, and no slipshod methods, no careless workmanship, no lack of quality, is ever allowed to mar the record of the past. But to improve, if possible, this record, is ever our aim, and goods are sold for as low a price as it is possible to sell reliable goods.
It will pay you in the end to deal with the Old Reliable Jeweler.
